World Habitat Awards

The World Habitat Awards were established in 1985 by the Building and Social Housing Foundation as part of its contribution to the United Nations International Year of Shelter for the Homeless.

Every year an award of £10,000 is presented to each of the two winners at the annual United Nations global celebration of World Habitat Day. Travel and accommodation costs are also met for one representative of each winning project to attend the awards ceremony.

Entries to the 2020 competition can be made from Wednesday 1 January 2020 until Monday 23 March 2020.

Housing projects and approaches are sought that:

- demonstrate practical, innovative and sustainable solutions to current housing issues faced by countries all around the world
- can be transferred or adapted for use as appropriate
- are already being implemented or are completed ie not at design stage or very early stages of development
- view the term habitat from a broad perspective and bring other benefits as well, such as energy or water saving, income generation, social inclusion, community and individual empowerment, health benefits, capacity building or education.

All entries are assessed and up to 12 projects are shortlisted by an assessment committee. These shortlisted projects are then evaluated by an independent advisory group.

Loreto Foundation Fund

The Loreto Foundation Fund is the annual income from an initial capital which was invested by the Loreto Sisters following the sale of Loreto Abbey, Rathfarnham, Dublin, their first house in Ireland.

It supports groups which are of benefit to, and improve the lives of, the most vulnerable in Irish society. It does this by focusing on specific areas of needs. The focus for 2019 and 2020 is homelessness and so the fund will only fund groups that are working in this area.

Essential Criteria

- Applications MUST be completed using the official application form (see below), using only the allocated space on the form and be returned electronically.
- Your group must have some form of governance structure e.g. Trustees, Board of Directors, Board of Management, etc.
- Your group must maintain books of account and have a system of financial reporting. You must submit a copy of your group's most recent annual report and accounts as part of your application.
- Any funding received from the Foundation must be identified separately in your financial accounts. This can be in the notes to the accounts.
- Your group will need to be clear on the specific changes and benefits that your work will provide for your users / beneficiaries. As such, your application must be clear on the objectives for your project and who will be benefiting directly from it. In addition, your objectives should be measurable in order to allow you to monitor your project and to evaluate its success.
- You must immediately receipt / acknowledge any funding received.
- You must utilise the grant within the specified time period (see timelines below).
- You must also submit an end-of-grant report, using the official end-of-grant form, in relation to the funding received. You must also submit the most recent audited /externally reviewed and signed Financial Accounts. Any funding received from the Foundation should be identified separately in your audited/externally reviewed financial accounts. This can be in the Notes to the Accounts. If it is not possible to call out separately, the Income and Expenditure, then the headings under which the incoming

grant and out-going expenditure are included, should be highlighted. Details of the expenditure made should also be provided.

Other relevant information:

- The Foundation has the right, at its own discretion, to nominate a representative to visit the project in order to check on progress and / or check on the financial reporting system for the project.
- The maximum grant awarded is €6,000.
- Grants must be used for purpose(s) for which they were given and should not be used for any other purpose without the written approval of the Foundation.
- Unfortunately, demands made on the Foundation always out-strip the funds available, and this means that many good applications, whilst meeting the criteria, will still be unsuccessful.
- The committee reserve the right to apply enhanced criteria when the demand exceeds the funds available.

EYF Grants - Annual Work Plan Grant

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

Within the strategic approach or global action plan of an organisation (what the organisation would like to achieve in the year(s) to come), you are asked to identify a coherent set of activities/elements to be submitted to the EYF. It should be in line with what you do and want to achieve, but it should also be in line with the work, priorities and principles of the youth sector of the Council of Europe.

Each activity/element should contribute to the aim of the work plan and the accomplishments of the work plan as a whole should contribute to the global purpose of the organisation. The work plan does not need to reflect the whole strategy of your NGO; it can be one element of it only.

The different activities of a work plan have to contribute to achieve the objective of the work plan as a whole and have to be interconnected.

It is useful to look at the "flow" of the various actions chronologically: individual activities are linked to each other, feed off and feed into each other (content-wise, through the participants and/or multipliers, towards one common result).

Material production or preparatory meetings should not be included as separate activities. They should be included in the activities they are contributing to.

The maximum grant allocated is €50 000. The grant awarded for an annual work plan is paid in three instalments: 60% when the signed contract is sent to the EYF by post and the conditions in the contract (if any) are met, 25% upon receipt of the interim report and the remaining 15% upon receipt of a satisfactory activity and financial report.

The following criteria are a requirement for annual work plans:

- Composed by several activities (international/other); at least one international activity;
- Clear flow/link between activities: interconnected;

- Each individual activity contributes to the overall objectives of the work plan;
- Link with priorities, missions and vision of the CoE youth sector;
- At least one third of co-funding for international activities;
- A gender perspective is taken into account throughout the whole process.
- Importance is also given to a non-formal education approach in your projects.

What kind of activities can be included?

International activities

A work plan cannot be a set of very small activities or material production only. A work plan needs to have a "European dimension" and this means it should still contain international activities (at least one).

Remember the criteria of international activities (see link): 4 nationalities represented in the team, a gender and geographical balance among participants (minimum of 7 nationalities).

You should find co-funding for the international activities. The EYF will not be able to cover more than two-thirds of the total cost of the international activities calculated together (i.e. the two-third rule will not apply to each separate international activity).

Other activities

“Other activities” can be included such as campaigns, study visits, series of workshops, “mobile” activities (activities which involve travel).

Examples of activities that can be included in a work plan as an “other” activity.

Preparatory meetings, research, needs analysis should be linked to an activity in the work plan, not an activity in itself. Material production should be the “result of” or part of the “follow up of” an activity and not an activity standing on its own.

Statutory or internal meetings (e.g. Board meetings, General Assemblies) cannot be included as separate activities in a work plan. These are covered by an EYF structural grant. If a statutory meeting takes place in conjunction with an activity supported by the EYF (e.g. a Board meeting directly after an international activity), this has to be clearly explained and the relevant costs must be separated.

Aim and objectives of an annual work plan

You will be asked to provide the objectives of each activity of the work plan and also the objectives and the aim of the work plan as a whole. The objectives of each individual activity should contribute to achieve the overall objectives of the work plan.

You need to show the relevance of the set of activities submitted to the EYF within the medium or long-term development of the organisation, but also show how this contributes to the priorities, mission and vision of the Council of Europe.

Gender perspective criteria included in all EYF grants

Special attention will be given to applications integrating a gender perspective. This should be clearly explained in the grant application. Gender perspective does not mean having an equal number of female and male participants. You should try to develop your project looking through different gender glasses, taking into account the needs of young women and men. More information on gender mainstreaming www.coe.int/equality and our gender mainstreaming page developed having in mind youth NGOs.

Eligibility

Who can apply?

- International youth NGOs;
- International networks of youth NGOs.

How to Apply

Non-governmental youth organisations must be registered before being able to submit an application.

EYF Grants - International Activity Grant

The European Youth Foundation (EYF) is a fund established in 1972 by the Council of Europe to provide financial support for European youth activities. Its purpose is to encourage co-operation among young people in Europe by providing financial support to such European youth activities which serve the promotion of peace, understanding and co-operation in a spirit of respect for the Council of Europe's fundamental values such as human rights, democracy, tolerance and solidarity.

What is International Activity?

International meeting of young people or youth leaders in Europe which contribute to the work of the youth sector of the Council of Europe in topic, methodology and with a clear European dimension.

The following hard criteria are a requirement for an international activity:

- Participants must represent at least 7 Council of Europe member states*;
- It has to be run by an international team (4 nationalities represented in the project team);
- 75 % of participants under 30 years old;
- A gender and geographical balance must be ensured;
- A gender perspective is taken into account throughout the whole process.
- Importance is also given to a non-formal education approach in your projects.

Until now, four working days were considered as a minimum duration for an international activity based on the principles of non-formal education/learning. However, in order to adapt to NGOs' needs, the EYF will no longer consider this duration as a hard criterion. Nevertheless, the EYF will continue to assess grant applications on the basis of their merit and the quality of the programme provided. NGOs applying for activities lasting less than four days will have to convince the EYF that the activity is based on a non-formal education approach.

Statutory or internal meetings (e.g. Board meetings, General Assemblies) cannot be supported as a one-off international activity. These are covered by an EYF structural grant. If a statutory meeting takes place in conjunction with an international activity supported by the EYF (e.g. a Board meeting directly after the activity), this has to be clearly explained and the relevant costs must be separated.

The maximum grant allocated is €20 000. The EYF will cover up to two-thirds of the total real costs of the activity. NGOs need to find additional resources to cover the remaining one-third.

Gender perspective criteria included in all EYF grants: special attention will be given to applications integrating a gender perspective. This should be clearly explained in the grant application. Gender perspective does not mean having an equal number of female and male participants. You should try to develop your project looking through different gender glasses, taking into account the needs of young women and men.

More information on gender mainstreaming www.coe.int/equality and our gender mainstreaming page developed having in mind youth NGOs.

What costs are covered by the grant?

Participant's travel, accommodation and food are covered. Also trainer/expert fees, production of material and renting of rooms and equipment. Volunteer time can be included up to a maximum of 10% of the total budget.

The volunteer cannot be paid (travel, accommodation, food can be covered) but the monetary value of the volunteers's contribution can be included in expenditure and income. A more detailed explanation can be seen in the Volunteer time recognition

Eligibility

- International non-governmental youth organisations can apply on their own;
- International networks of youth NGOs can apply on their own;
- Regional networks of youth NGOs can apply on their own;
- National non-governmental youth organisations can apply if the activity is prepared in partnership with at least 3 other national NGOs or networks from different countries or with at least 1 international NGO or network.

Erasmus+ Programme: 2014 - 2020

Erasmus+ is the European Union programme for education, training, youth and sport for the years 2014 to 2020. It provides funding and support for organisations to operate projects consistent with its objectives and which encourage European exchange, co-operation and learning. Erasmus+ is funded by the European Union through the contributions of member states, including Ireland. Funding of almost €170 million has been allocated to Ireland for the duration of the programme.

Erasmus+ funding is available to all sectors (or fields) of formal, informal and non-formal education. Structurally, Erasmus+ is divided into three 'Key Actions' describing the kind of project activities possible.

Programme Objectives

Erasmus+ aims to modernise and improve the quality of teaching, training and youth work across Europe, and to support the development, transfer and implementation of innovative practices. These objectives are closely tied with the Europe 2020 strategy of achieving a smart, sustainable and inclusive economy by 2020 for all of Europe's citizens. Fundamental goals for Erasmus+ include improving key competences and skills, and fostering partnerships between education and employment. The programme also seeks to promote European values as stated in Article 2 of the Treaty on European Union: respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights.

Eligibility

Erasmus+ is open to private or public organisations active in the fields of adult education, higher education, school education, sport, vocational education and training, and youth and community work, in any participating country. While the programme enables individuals to travel, work, volunteer and study abroad, project applications from individuals themselves are not accepted. However, individuals may apply to attend Transnational Cooperation Activities with the support of their organisations.

Some key actions / proposals are managed directly by the European Commission, while others are managed by the relevant national body (Leargas in the case of Ireland - note: Leargas managed items are in bold below).

Learning mobility of individuals (Key Activity 1)

This Key Action supports:

Mobility of learners and staff: opportunities for students, trainees, young people and volunteers, as well as for professors, teachers, trainers, youth workers, staff of education institutions and civil society organisations to undertake a learning and/or professional experience in another country;

Erasmus Mundus Joint Master Degrees: high-level integrated international study programmes delivered by consortia of higher education institutions that award full degree scholarships to the best master students worldwide;

Erasmus+ Master Loans: higher education students from Programme Countries can apply for a loan backed up by the Programme to go abroad for a full Master Degree. Students should address themselves to national banks or student loan agencies participating in the scheme.

Cooperation for innovation and exchange of good practices (Key Activity 2)

This Key Action supports:

Transnational Strategic Partnerships aimed to develop initiatives addressing one or more fields of education training and youth and promote innovation, exchange of experience and know-how between different types of organisations involved in education, training and youth or in other relevant fields. Certain mobility activities are supported in so far as they contribute to the objectives of the project;

Knowledge Alliances between higher education institutions and enterprises which aim to foster innovation, entrepreneurship, creativity, employability, knowledge exchange and/or multidisciplinary teaching and learning;

European Social Catalyst Fund

Applications are now being accepted for the European Social Catalyst Fund (ESCF), a new initiative designed to have significant impact on some of Europe's most pressing social challenges.

The objective of the ESCF is to bring together public and private resources to improve social services to enable people who need support to live as valued and participating members of their communities.

The ESCF will provide financial and capacity building support to develop plans to scale proven social service innovations. It is anticipated that these plans will provide details of how public and private resources (philanthropy and/or social investment) can be brought together in a range of collaborations that focus on the role that philanthropy and social finance can play in working with the public sector to help re-focus public spending in a more effective direction in the interest of European citizens. It is intended that during the project a further phase will be designed, based on learning obtained, which will include a focus on supporting implementation of plans to scale proven social service innovations.

The ESCF has been established and co-funded by the European Union's Horizon 2020 Research and Innovation Programme, Genio (Ireland), the Robert Bosch Stiftung (Germany) and the King Baudouin Foundation (Belgium). It will award planning grants across a range of priority social challenge areas within, or across, European Union Member States. The purpose of the grants is to support the development of detailed implementation plans aimed at reducing, or overcoming, social challenges. Innovations will be identified through a pan-European call and all eligible applications will be evaluated against published criteria. Preference will be given to innovations that have the most robust evidence of success and that aim to reach the most significant scale. Each selected application will receive a planning grant of up to €100,000 along with capacity building support.

A minimum of €600,000 will be allocated to support at least 6 plans.

Objectives of the European Social Catalyst Fund:

- To provide financial support, guidance and information to proven social service innovations selected through a pan-European competition to develop implementation plans to upscale.
- To stimulate a broader range of public sector, philanthropic and social investment collaborations that foster the scaling of social service innovations to meet social

challenges across EU Member States aligned with the principles of the European Pillar of Social Rights.

- To produce exemplar plans across a range of priority social challenge areas that can be implemented to a substantial level of scale within two years.
- Plans also must be relevant to the social and implementation challenges in at least five EU Member States, two of which will be Central and Eastern European Countries (CEECs).
- To develop and disseminate knowledge and skills on how to successfully plan the scaling of social service innovations.
- To design a further phase of the European Social Catalyst Fund based on learning obtained in the process of achieving these objectives.

Eligibility

Preference will be given to innovations that have the most robust evidence of success and that aim to reach the most significant scale. Decisions regarding the allocation of grants will be made by the consortium of philanthropy organisations contributing to the ESCF. Successful applicants will receive a planning grant of up to €100,000 along with capacity building support. A minimum of €600,000 will be allocated to support at least 6 plans. It is anticipated that the successful applicants will represent a range of social challenge and geographic areas.

National Geographic Society Grants

All proposed projects should be bold, innovative, and potentially transformative and have a primary focus in conservation, education, research, storytelling, or technology. Projects should also align to one of our three focus areas.

We do not usually consider applications that support strictly laboratory or collections work. Grants are awarded on the basis of merit and exist independent of the Society's other divisions.

We encourage applications from around the world.

Please note that this is a highly competitive grant program; we receive many more applications than we are able to fund.

Project start dates should be a minimum of six months after the submission deadline to ensure any awarded funds are received in time.

Focus Areas:

WILDLIFE

Wildlife includes species-focused projects and the local evolutionary and ecological processes that sustain them. Although extinction is a natural part of evolution, the current accelerated loss of species means that we need novel approaches and solutions that support biological diversity and abundance. This area of focus supports projects that seek to discover and identify species and ecosystems and to mitigate threats to Earth's life forms. Projects will improve understanding of biological diversity, including behavior, life history, evolution, ecology, and habitat requirements.

HUMAN JOURNEY

Human Journey focuses on learning more about who we are and what our future will be on this planet. It supports projects in a range of fields that are helping us understand the origins and development of our species; how we modified and adapted to diverse landscapes across the globe; the evolution of cultures and societies; and the current status of and trends in our cultural, linguistic, and genetic diversity. Recognizing that human society is currently out of balance with the natural world, we also seek projects that propose solutions to mitigate this imbalance.

CHANGING PLANET

Changing Planet grants focus on our Earth's dynamic terrestrial, marine, and freshwater ecosystems. These are the foundations of life on the planet, yet are increasingly threatened by exploitation, mismanagement, and climate change. We seek projects that illuminate these issues to better inform decision making and to develop more effective models for conservation and protected area management at large scales. This area of focus seeks to reduce negative human impacts on ecosystems and Earth processes by increasing knowledge, inspiring action, and creating solutions with direct, quantifiable, and scalable methods for conserving landscapes or seascapes.

DM Thomas Foundation for Young People Grants

Previously known as the Hilton in the Community Foundation, the DM Thomas Foundation for Young People (DMTFYP) is able to reach directly into communities and offer help where it is needed, as a funder to smaller charities and organisations that may be otherwise overlooked. We run a number of campaigns which seek to support young people.

Central Grants – structure and approval process

The Foundation has a rigorous grant process which aims to identify the most effective projects helping disadvantaged young people in the UK and Ireland.

Applications are received for quarterly deadlines from registered charities are first assessed by the Foundation office, with a shortlist of approximately 20 of the strongest and regionally representative applications put forward for consideration by our Grants Committee. The Grants Committee comprises independent members and members nominated by the Foundation's business partners and meets quarterly to discuss the applications. There is approximately £200,000 available to distribute each quarter.

Eligibility

Applications working in the areas of education or health with one of our three chosen focus groups are selected or considered:

- Children and young people with disabilities
- Children and young people who are sick in hospital
- Children and young people who are life limited (requiring palliative care)

If favoured, grant applications for up to £5,000 can be approved by the Director, up to £10,000 can be approved by the Grants Committee, and applications for more than £10,000 are recommended to the Trustees for final approval. The Foundation is a small charity and generally will not make awards of over £30,000 (per year). Funding can be requested for up to 2 years for any particular project.

Reapplications are welcome, however unsuccessful applicants are asked not to reapply for at least 12 months from the date of their rejection letter. Successful applicants are asked to wait three years before reapplying.

The Foundation receives thousands of telephone and email enquiries and hundreds of completed applications each year, making the grant award process highly competitive. To help us to help you, please read our application guidelines and restrictions carefully. Unfortunately, with a limited grant fund we are unable to respond favourably to all requests, however worthy. We provide specific feedback on grant rejections where guidance and improvements can be made however due to the volume we are unable to provide specific feedback to first round rejections given the competitive nature of the process.

Energy for Generations Fund

As a leading Irish organisation with deep roots in the community dating back to 1927, we are committed to playing a role in addressing some of the key social issues facing Ireland today.

Corporate Responsibility (CR) is at the heart of this vision. Through our Energy for Generations Fund, we have three main pillars of focus:

- Suicide
- Homelessness
- Education Access and Support

Criteria

ESB's Energy for Generations Fund sees €1m per year disbursed through a quarterly fund to charities working in the areas of suicide prevention, homelessness and education access and support.

ESB has been supporting initiatives in the areas of suicide prevention and homelessness since 2005. The Energy for Generations Fund introduced a new focus on education in 2014, which recognises the need for educational supports at all levels to ensure that Ireland has the skills it needs to compete effectively.

Our aim with the Energy for Generations Fund is to maximise the impact of our investment by taking a more strategic approach to effect change. Funding is only part of the jigsaw – we also want to leverage the skills and knowledge we have within the company to bring about more sustainable and positive outcomes.

Eligibility

Charities working in the areas of suicide prevention, homelessness and education access and support can apply to the Fund for project specific funding.

Every quarter ESB allocates an amount from the Fund for disbursement. The amount may vary because of the volume of applications received or seasonal considerations - wintertime and Christmas may require more funding than summer.

Applications submitted during each quarter are appraised at the end of the quarter and funding allocated accordingly.

The guideline application amount is c. €10,000. This is neither a minimum nor a maximum, rather an indication of the scale of the resources available. Average funding awards in recent years have been c. €6-7,000
