Ways to Search

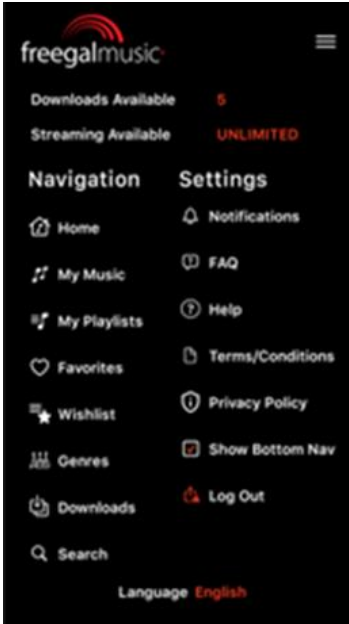

- Simply tap the **Search** icon.
- Use the search field at the top of the **genre** pages. Here, you can locate songs that fit your interests like pop, classical, jazz, hip-hop...etc. Explore the sub-genres too.
- Browse featured banners on the **Home Page**: *What's Hot, Now Trending, New Arrivals, Discover Albums, Explore Playlists, Discover Artists, Spotlight...etc.*
- To stream a song, simply click on the play arrow. Streaming is unlimited.

How Do I Download Songs?

- Tap the three dots to the right of a song and use the download link.
- Songs are only available to download on an individual basis. Entire albums cannot be downloaded but you can download songs on an album over time.
- If you start a download and then cancel it, it still counts as a download. We recommend using the song samples to ensure you're downloading a song you want.
- In **My Music/My Downloads**, you can see all the music you've downloaded.

How Do I Create a Playlist?

- Tap the three dots to the right of a song and use the **Add to Playlist** or **Create a Playlist** options.
- Create and view your playlists in **My Music**.

How Do I Manage Content?

- The easiest way is to use the **Menu** option.
- Browse by **Genre** or simply search by artist.
- **My Music** shows your playlists and wish-lists.
- It also shows your favourites and downloads.
- You can also search from **My Music**.
- Go to your created playlists from **My Playlists**.
- **Downloads** brings you straight to your music library.
- The **FAQ** section is great; we recommend you read it.
