Ms Jane Roche, daa

Re: Planning Application Reference: F25A/0094E

Dear Mr Coakley,

I refer to the above application for planning permission lodged by Coakley O'Neill Town Planning Ltd on behalf of the daa as applicant (the **Applicant**) on 05 February 2025 (the **Application**). After consideration of the Application ANCA formed the opinion that the development contains a proposal requiring the assessment for the need for a noise related action or new operating restriction. ANCA requires additional information from the Applicant as part of that assessment.

Processing of Regulatory Decisions at Dublin Airport

ANCA's objective as the Competent Authority is to establish a stable, long-term framework for the management of the noise problems and/or situations requiring improvement in line with the Noise Action Plan for Dublin Airport. For that purpose, ANCA is currently engaged in a Section 9 process under the Aircraft Noise (Dublin Airport) Regulation Act 2019. The information requested by ANCA in the Notice of Direction to Provide Information (the **Direction**) (ANCA reference: ANCA/DI/01/2025 dated 07 February 2025, including as amended 11 March 2025) is required for that purpose.

The information sought in the Direction extends into the time period in which daa intends to implement the proposed development.

Therefore, while ANCA awaits the information requested from daa in the Direction, it is not seeking further, additional information at this time in relation to the Application. ANCA will have regard to the information received in developing its draft Regulatory Decision for the Application.

For completeness, the Notice of Direction to Provide Information referred to is attached to this correspondence.

Sincerely,

Ethna Felten
Aircraft Noise Competent Authority

Encl: Notice of Direction to Provide Information, dated 07 February 2025 with ANCA reference: ANCA/DI 01/2025 with amendment dated 11 March 2025.
