

20th June 2025.

Notice to Mariners 02/2025 – A semi-submerged upturned boat found drifting.

A semi-submerged upturned white hull pleasure boat with outboard engines had been found drifting at sea last Sunday, towed to Skerries harbour, removed to the council's yard today. Unfortunately, we have no further details as the boat owner is not a member of the sailing club and the members, I have spoken to are not clear on the owner(s). The purpose of this notification on the FCC intentions might attract the owner's attention. The council moves this boat to Garristown Depot to keep it there 1 month awaiting the owners to pay the removal and handling costs back to FCC and to collect the boat on owners' account. Otherwise, this boat shall be disposed to a waste reception facility.

Skippers, owners, and recreational boaters should ensure that the contents of this notice are made known to the persons in charge of their vessels or craft. All notices to mariners can be found on the website <https://www.fingal.ie/council/service/harbours>.
